RELSTAR[®]

QUALITY LUBRICANTS

Relstar History

With a clear aspiration to offer quality and value, the brand Relstar evolved in 2007 as a distinct player in premium lubricants space.

In a short span of 14 months, Relstar offered a complete solution in automotive lubrication. with its 3 tier product positioning of Ultra, Excel and Super, Relstar has a solution for all customer segment in automotive lubrication.

Well formulated and curated products manufactured using high quality base oils and world class additives, Relstar is a solution not only for smooth cruising but also enhanced vehicle protection.

Recommended for:

- ◆ Trucks, Buses, Light Commercial Vehicles, MUVs(Multi Utility Vehicles), SUVs(Sports Utility Vehicles), Off-highway equipments used in construction, mining & agriculture and DG sets requiring use of API CI-4 Plus performance specification and SAE 15W40 viscosity oil.

Benefits:

- ◆ Exceptional soot handling capacity minimizes oil thickening & sludge build-up and provides protection to engine parts against wear, leading to prolonged engine life.
- ◆ Excellent bore polish and oil consumption control properties, improve engine efficiency and reduce operating cost.
- ◆ Outstanding oxidation stability and anti-corrosion properties ensure longer life of bearings, seals, valve train and other important parts of engine.
- ◆ Advanced additive formulation and high quality base oils ensure extended oil drain intervals.

Recommended for:

◆ Older Trucks, Buses, Light Commercial Vehicles, MUVs (Multi Utility Vehicles), SUVs (Sports Utility Vehicles), Off-highway equipments used in construction, mining & agriculture and DG sets requiring use of API CF-4 performance specification and SAE 20W40 viscosity oil.

Benefits:

- ◆ Excellent viscosity control due to high viscosity index
- ◆ Good anti-wear and anti-corrosion properties
- ◆ Superior protection against oxidation and deposits
- ◆ Better control against soot related oil thickening
- ◆ Good engine start up under cold conditions
- ◆ Lower oil consumption

SUPERIOR QUALITY EP AXLE OIL

Available in: 210L, 12L, 5L, 1L

Superior Performance. Better Protection.

Recommended for:

◆ New generation tractors & Off-highway equipments used in construction, mining & agriculture, having a common fluid to lubricate manual transmissions, hydraulic systems, final drive & oil immersed brakes and requiring use of API GL-4 performance specification and SAE 30 viscosity oil

Benefits:

- ◆ High oxidation and thermal stability
- ◆ Superior wet brake and wet clutch performance
- ◆ Good anti-wear and anti-corrosion properties
- ◆ Excellent seal compatibility
- ◆ Longer component life
- ◆ Smooth gear shift and clutch operations

Specifications:

Smooth Ride, Better Protection.

Recommended for:

- ◆ Automatic Transmission Synchronesh Gear Boxes of Commercial Vehicles & Passenger Cars, requiring use of Type A Suffix A performance specification fluid.

Benefits:

- ◆ Superior thermal stability and anti-oxidation properties ensure extended oil life
- ◆ Good anti-wear and anti-corrosion properties ensure longer life of gears
- ◆ Desired friction characteristic provide smooth driving experience
- ◆ Excellent compatibility with seals and other materials

Specifications:

Superior Protection to Catalytic Converter

Recommended for:

- ◆ All the latest generation commercial vehicles operating on diesel fuel and fitted with Selective Catalytic Reduction device.

Benefits:

- ◆ Effectively reduces NOx
- ◆ Protects SCR System fitted in diesel vehicles
- ◆ Helps Vehicles meet the latest emission standards of BS IV and above
- ◆ Environment Friendly

Specifications:

Superior Protection. Smoother Ride.

Recommended for:

- ◆ Wheel bearings of Trucks, Buses, Light Commercial Vehicles, MUVs(Multi Utility Vehicles), SUVs(Sports Utility Vehicles), Tractors, Passenger Cars and Off-highway equipments used in construction, mining & agriculture requiring use of NLGI-3 consistency grease.

Benefits:

- ◆ Outstanding thermal and oxidation characteristics resulting in longer life of grease, better lubricity of bearings and extended bearing life
- ◆ Superior tackiness for better “Stay Put” characteristics providing excellent resistance to water washout
- ◆ Higher drop point provides wider operating temperature range of applications
- ◆ Excellent corrosion and rust protection performance

Recommended for :

- ◆ Hydraulic systems of mobile construction equipments, cranes and industrial machineries, fitted with wide variety of pumps operating under moderate to heavy duty conditions, except where significant ambient temperature variations encountered.

Benefits:

- ◆ Excellent thermal and oxidation stability
- ◆ Excellent demulsifying & air release properties
- ◆ Extended pump durability
- ◆ Excellent anti-wear performance
- ◆ Extended life of seals and oil filters
